

FACEBOOK FOR QUADRILATERALS

THE TASK:

You are to create 3 Facebook Accounts for 3 different quadrilaterals from the chapter. You may choose from: parallelogram, rectangle, square, rhombus, kite, and trapezoid (or isosceles trapezoid).

For EACH account, you need:

- A profile picture (cartoon or not)
- Name
- What's on your mind statement. This should be related to the shape.
- Feeling / Status. This should be related to the shape.
- 4 wall posts. You may have 4 different posts or a post and comments or a combination. The posts need to have something to do with your shape. They can be puns or funny, but they must somehow be related to the shape.
- 2 Friends from the wall posts (different from your accounts)
- A job or education. This should be related to the shape.
- 3 Personal Information Items. They **MUST** be real items. They should be related to the shape.
- 7 photos. You may have a mix of real life and cartoon. At least four must be real life photos of your shape.
- 2 album covers. These must be different from your other photos.
- 3 videos They must somehow be related to the shape.

FACEBOOK TEMPLATE:

Please make a copy of the google slides sample template I provided and make it your own!! If you prefer to use a different form please see me before you start - especially if you do not know how to make links in a google slide presentation!!

WORDS OF CAUTION:

- Students should use **real movies/books/music** and not make things up.
- "Having parallel lines" is not a hobby, nor is "the geometry textbook" an acceptable answer for a favorite book
- The hobbies/ interests activities and entertainment must be related to the **shape** that the student is creating – "hanging out with friends at the mall", while a valid hobby to have for a person, is not something particularly special for a shape

Do not forget to examine the sample I created. It should help clear up any questions!!

EACH FAKE FACEBOOK ACCOUNT WILL BE GRADED ON THE FOLLOWING:

Items	Points
Profile Picture	2
Name	1
What's on Mind (must be related to shape)	1
Feeling / Status (must be related to shape)	1
4 Wall Posts (must be related to shape)	4
2 Friends in Wall Post (different from the accounts you are creating)	2
Links to the 2 other accounts you created	2
Job / Education (must be related to shape)	1
3 items from Personal Information (must be related to shape)	3
7 photos (minimum 4 real life objects)	7
2 album covers (different from photos)	2
3 videos (must be related to shape)	3
Total points PER ACCOUNT:	29
Since 3 accounts: 29 x 3	TOTAL PROJECT 87 points

You can use the explanations below as inspiration. You **may not use any of the explanations below or on the sample- you must come up with your own**

Toby Trapezoid's favorite TV show is SpongeBob SquarePants because the Krusty Krab looks kind of like a trapezoid.

Karla Kite's studying to be a pilot. She loves flying like a kite!

Rex Rectangle is a computer engineer. The screen is just like looking a mirror!

Rita Rectangle loves interior design because rugs are usually rectangles.

Do not forget to examine the sample I created. It should help clear up any questions!!
